Cerebrovascular Society of India

# HANDS-ON WORKSHOP ON MIRCOVASCULAR & ENDOVASCULAR SKILL TRAINING ON LIVE ANIMALS AND MODULES

**Date: 12th & 13th JUNE 2025**

Venue:

**P V Narasimha Rao Telangana Veterinary University (PVNRTVU)  
& Veterinary Hospital, Rajendranagar, Hyderabad**

Co-Hosted by

**RENOVA INSTITUTE OF  
NEUROLOGICAL SCIENCES**

RENOVA INSTITUTE OF  
NEUROLOGICAL SCIENCES

**HANDS-ON WORKSHOP ON  
MIRCOVASCULAR & ENDOVASCULAR  
SKILL TRAINING ON LIVE ANIMALS AND MODULES**

## *Welcome Message*

Dear Colleagues,

It is with great pleasure that I welcome you to the Hands-on Workshop on Neurovascular Skill Training, an immersive, skill-oriented program focusing on microvascular suturing, anastomosis on animal tissues and models, live animal training, and endovascular simulation to be held on 12<sup>th</sup> and 13<sup>th</sup> June 2025 at the College of Veterinary Sciences (PVNRTVU), Rajendranagar, Hyderabad.

This workshop is conducted by the PAN Research Foundation under the aegis of the Cerebrovascular Society of India (CVSI) and in association with the Renova Institute of Neurological Sciences, and in collaboration with the Department of Surgery & Radiology, College of Veterinary Sciences, PVNRTVU, Hyderabad.

This workshop is designed to enhance both foundational and advanced competencies essential for modern neurovascular practice. In today's surgical environment, proficiency in microvascular and endovascular techniques is crucial. This program offers a unique opportunity to engage directly with these procedures through hands-on training on models, ex-vivo, and live animal platforms under expert supervision.

Participants will begin with basic microvascular suturing and endovascular procedures, progressing to advanced modules that improve surgical dexterity and precision. A special feature of the workshop includes the "How I Do It" video sessions, where experienced faculty will demonstrate real-world surgical workflows in both microvascular and endovascular domains.

This collaborative initiative underscores our shared dedication to practical learning, surgical excellence, and ongoing innovation. We are confident that this experience will not only build technical skills but also cultivate collaboration and lifelong learning.

Warm regards,

**Dr. Syed Ameer Basha Paspala**  
Course Director

Chairman - **PAN Research Foundation**
